

To the FCC:As a listener, I find XM Satellite Radio including local traffic and weather channels very useful. The programming variety and quality are not available elsewhere. Since I am paying for these services, it should not be up to the National Association of Broadcasters to influence what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I expect and prefer. Thank you for your kind attention.
